Not All Garlic Is the Same

Source Matters

When it comes to garlic in feed, quality and consistency matter more than anything else. QualiTech's garlic products are derived from **food-grade garlic oil**, not commodity-grade garlic powders or "synthetic" oils. That QualiTech difference delivers meaningful levels of the key compounds that benefit your animals:

- Diallyl sulfide & Diallyl disulfide
- These aromatic compounds are associated with garlic's functional and nutritional value.

The Oil-Based Difference

Premium garlic oil. Proven science. Real-world performance.

The Result?

A stable, concentrated, and consistently effective garlic ingredient designed for real performance.

- Feedbuds® Garlic Dry
- Feedbuds® Garlic Liquid
- Feedbuds® Garlic Organic Dry
- BioEdge Garlic
- BioEdge Garlic Plus

BioEDGE GARLIC

BioEDGE GARLIC PLUS

Encapsulated Garlic Supplements

QualiTech's BioEdge bioactive product line includes BioEdge Garlic and BioEdge Garlic Plus, two stable, highly palatable sources of garlic oil.

BioEdge encapsulation protects garlic, ensuring consistent delivery to the GI tract while dramatically reducing odor during handling and processing.

Livestock producers will appreciate BioEdge Garlic and BioEdge Garlic Plus – natural alternatives for achieving expected garlic supplementation benefits.

BioEdge Garlic Plus is a concentrated formulation for users who prefer this option.

One Ingredient. Multiple Benefits.

Palatability. Performance. Practicality.
